Contents of volume 330

No. 1 issued on July 19, 1985

M.-L. Bouthenet, N. Sales, J.-C. Schwartz: Autoradiographic localisation of ^{3}H-apomorphine binding sites in rat brain **1**

J.-A. García-Sevilla, M. L. Dubocovich, S. Z. Langer: Interaction between presynaptic facilitatory angiotensin II receptors and inhibitory muscarinic cholinoceptors on ^{3}H-noradrenaline release in the rabbit heart **9**

K. Honda, A. M. Osawa, T. Takenaka: α_1-Adrenoceptor subtype mediating contraction of the smooth muscle in the lower urinary tract and prostate of rabbits **16**

M. Holck, M. Gerold: Calcium entry blockers inhibit vasoconstrictor responses to sympathetic nerve stimulation mediated by α_1-adrenoceptors **22**

V. A. Alabaster, R. F. Keir, Ch. J. Peters: Comparison of activity of alpha-adrenoceptor agonists and antagonists in dog and rabbit saphenous vein **33**

E. S. Kristensen, J. Fryklund: Adrenergic stimulation of pepsinogen release from rabbit isolated gastric glands **37**

B. Lemmer, H. Winkler, T. Ohm, M. Fink: Chronopharmacokinetics of beta-receptor blocking drugs of different lipophilicity (propranolol, metoprolol, sotalol, atenolol) in plasma and tissues after single and multiple dosing in the rat **42**

B. Hazelhoff, J. B. De Vries, D. Dijkstra, W. de Jong, A. S. Horn: The neuropharmacological profile of N-methyl-N-propargyl-2-aminotetralin: a potent monoamine oxidase inhibitor **50**

M. Noda, I. Muramatsu, M. Fujiwara, K. Ashida: Effects of goniopora toxin on bullfrog atrial muscle are frequency-dependent **59**

K. Ito, N. Saruwatari, K. Mitani, Y. Enomoto: Characterization of depolarization induced by palytoxin and grayanotoxin-I in isolated cardiac tissues from dogs and guinea pigs **67**

Short communication

A. N. M. Schoffelmeer, G. Wardeh, A. H. Mulder: Cyclic AMP facilitates the electrically evoked release of radiolabelled noradrenaline, dopamine and 5-hydroxytryptamine from rat brain slices **74**

No. 2 issued on August 9, 1985

U. Weller, U. Bernhardt, D. Siemen, F. Dreyer, W. Vogel, E. Habermann: Electrophysiological and neurobiochemical evidence for the blockade of a potassium channel by dendrotoxin **77**

L. van Wolfswinkel, J. M. van Ree: Effects of morphine and naloxone on thresholds of ventral tegmental electrical self-stimulation **84**

T. Kameyama, T. Nabeshima, A. Sugimoto, K. Matsuno, S. Yamada: Antinociceptive action of tizanidine in mice and rats **93**

J. Arnt: Antistereotypic effects of dopamine D-1 and D-2 antagonists after intrastriatal injection in rats. Pharmacological and regional specificity **97**

R. Jackisch, S. Moll, T. J. Feuerstein, G. Hertting: Dopaminergic modulation of hippocampal noradrenaline release. Evidence for α_2-antagonistic effects of some dopamine receptor agonists and antagonists **105**

P. Alberts, V. R. Ögren, Å. I. Sellström: Role of adenosine 3′,5′-cyclic monophosphate in adrenoceptor-mediated control of ^{3}H-noradrenaline secretion in guinea-pig ileum myenteric nerve terminals **114**

P. R. Saxena, E. J. Mylecharane, J. Heiligers: Analysis of the heart rate effects of 5-hydroxytryptamine in the cat; mediation of tachycardia by 5-HT_1-like receptors **121**

U. Holzer-Petsche, E. Schimek, R. Amann, F. Lembeck: In vivo and in vitro actions of mammalian tachykinins **130**

X.-Y. Hua, S.-E. Dahlén, J. M. Lundberg, S. Hammarström, P. Hedqvist: Leukotrienes C_4, D_4 and E_4 cause widespread and extensive plasma extravasation in the guinea pig **136**

M. Maeda-Hagiwara, H. Watanabe: Intracerebroventricular injection of a TRH analogue, γ-butyrolactone-γ-carbonyl-L-histidyl-prolinamide, induces gastric lesions and gastric acid stimulation in rats **142**

H.-K. Heim, H.-J. Ruoff: Cyclic GMP and acid production in isolated gastric cells of the rat **147**

V. B. Fiedler, B. Kettenbach, H. Göbel, R.-E. Nitz: Treatment of haemodynamic and electrocardiographic side-effects resulting from imipramine toxicity in rats and dogs **155**

No. 3 issued September 23, 1985

J. N. Sinha, S. Gurtu, D. K. Sharma, K. P. Bhargava: An analysis of the α-adrenoceptor modulation of vasomotor tone at the level of lateral medullary pressor area (LMPA) **163**

M. E. Otero Losada, M. C. Rubio: Striatal dopamine and motor activity changes observed shortly after lithium administration **169**

U. Sillén, B. Persson, A. Rubenson: Central effects of baclofen on the L-dopa induced hyperactive urinary bladder of the rat **175**

S. J. Clark, T. W. Smith: Opiate-induced inhibition of the visceral distension reflex by peripheral and central mechanisms **179**

B. Lux, R. Schulz: Opioid dependence prevents the action of pertussis toxin in the guinea-pig myenteric plexus **184**

C. Korstanje, M.-J. Mathy, K. van Charldorp, A. de Jonge, P. A. van Zwieten: Influence of respiratory acidosis or alkalosis on pressor responses mediated by α_1- and α_2-adrenoceptors in pithed normotensive rats **187**

E. N. Juberg, K. P. Minneman, P. W. Abel: β_1- and β_2-adrenoceptor binding and functional response in right and left atria of rat heart **193**

U. Trendelenburg: The outward transport of catecholamines mediated by uptake$_2$ of the rat heart **203**

U. Schwabe, D. Ukena, M. J. Lohse: Xanthine derivatives as antagonists at A_1 and A_2 adenosine receptors **212**

G. Fassina, R. M. Gaion, L. Caparrotta, F. Carpenedo: A caffeine analogue (1,3,7-trimethyl-6-thioxo-2-oxopurine) with a negative inotropic and chronotropic effect **222**

G. T. Bolger, M. F. Rafferty, P. Skolnick: Phencyclidine increases the affinity of dihydropyridine calcium channel antagonist binding in rat brain **227**

M. Kohlhardt, C. Seifert: Properties of V_{max} block of I_{Na}-mediated action potentials during combined application of antiarrhythmic drugs in cardiac muscle **235**

Short communications

F. Hentrich, M. Göthert, D. Greschuchna: Involvement of cAMP in modulation of noradrenaline release in the human pulmonary artery **245**

S. Arbilla, H. Depoortere, P. George, S. Z. Langer: Pharmacological profile of the imidazopyridine zolpidem at benzodiazepine receptors and electrocorticogram in rats **248**

No. 4 issued on October 18, 1985

General index for volumes 321 (1982) — 330 (1985)

Indexed in Current Contents

This volume includes a supplement with the abstracts of the joint meeting (Autumn meeting) of the Deutsche Pharmakologische Gesellschaft, held September 23—26, 1985, Aachen R1—R81
